### The Parent Problem By Garry C. Myers, Ph. D.

HOME IS SCHOOL FOR STUDY MOST AND BEST real stdying is probably not done at school but at home. In college, practically all studying is away from the classroom; in later life it certainly is. The child or youth who studies effectively at home, under his own supervision, has acquired something very valuable, assuming that he doesn't work too hard at it. He is building useful qualities of character, even if he doesn't have time to help much about the home. Often I commend a certain high school lad on his excellent homework habits. In doing so I remind him that while he will see at school the results of his good efforts, far bigger results

## FROM ME TO YOU

It seems that last night holds this years record for being the coldest . . . at least that is what we take from our private thermometer . . and no doubt someone will disagree. If we told what the reading was there would be one place in this county that would say, you are wrong, it was much colder out here in Eastbrook . . . Maybe so, we don't know but we are almost certain winter is here

Down in Porto Rico the natives up to the time the citizens of the United States invaded the island celebrated Christmas on the 6th of January . . called three Kings day. A few folks still celebrate this day and some of the bigger hotels and resorts make this day in conjunction with Christmas a holiday . . . attracting northern folks . . . in gathering this material we found that Arros con Polio is the national dish of the island . . . in English this means Rice with Chicken (a very tasty dish, we are now trying to get the receipt for you) Until a later date, maybe.

We find upon investigation that the traffic arrow at the corner of Grant and North Jefferson streets is set at the proper time . . . if the arrow directing traffic west was prolonged it would hold up traffic coming down Jefferson street too long . . . thus creating another complaint . . . just drive carefully fellow drivers, obey all signs and we know you will enjoy driving much better . . . but everyone must obey the laws . . . to our knowledge there is no loop hole in the traffic law stating or permitting taxies to be privileged individuals.

Not many days until Christmas . . . have you started your shopping . . there are several folks in town who claim that their shopping is all over . . . they can now sit back and relax. Wonder what they keep coming down town every day for? . . . Maybe they had an EXTRA thought . . . but all and all . . . there's something about walking through a store that gets you. Some fun eh keed.

keeping the downtown streets free so that you will not be held up too long. Why not make it easier for yourself by obeying the traffic laws concerning double parking . . . don't be a hog all your life. Give it to them officer.
